Season's End Summit: A Sold Out Success!
By Risa Edelstein

The energy and enthusiasm at last week's Summit was inspiring. Held in an intimate setting at Habitat Wildlife Sanctuary, an old-style mansion in the Boston area, ELA's first annual Summit was a full day of networking and learning opportunities and embodied the spirit of ELA’s mission. Read more.

Transforming a Storm-Damaged Landscape
By Martha Coutts-Eisenberg

In January 1998, Randolph, in northern New Hampshire, experienced a once-in-a-hundred-year ice storm. Nearly three-quarters of the large trees lost their crowns, covered by 6 inches of ice. Imagine the sound of trees snapping and branches falling for five days as the ice got thicker and heavier. Read more.

Transplanting Trees Using Air Spading
By Sonia Baerhuk

Successfully navigating the challenges of large scale construction projects while creating and preserving ecological landscapes, involves considerations beyond typical landscape design. Read more.

Getting Started with Sustainable Landscaping: Tips from the Field
By Gary Krause
Sustainability in Landscape has many different meanings. Some define a sustainable landscape as a discipline that emphasizes plant health, soil condition, water quality, and resource conservation.
